Description: Roon was a rancher of an unidentified species with green skin and four eyes. During the High Republic Era, she enlisted the help of the Jedi Order on Tenoo to retrieve three lost bantha cubs. Jedi Master Zia Zaldor Zanna sent the Jedi younglings Kai Brightstar and Nubs to retrieve the cubs. Despite lacking their friend Lys Solay's skills with animals and Nash Durango's mechanical skills, the two younglings managed to work together to retrieve the banthas. Following the rescue, a grateful Roon expressed relief and thanked the Jedi for bringing back her bantha cubs.
