Move: 12

Description: Scoop Droids were large construction droids used by Ozon Nimbee, they were used to prepare the ground for construction by filling in holes and flattening the ground. They were also capable of making repairs to buildings and fences, as well as basic construction duties.
They were insectoid in nature walking on four legs, with a scoop attached to their head, and two smaller manipulator arms. They had a control panel on the read through which they could be reprogrammed or deactivated.
