Special Abilities:

Stomp: The Trontoshell has large feet which it uses to defend itself by stomping on any threats, this does Str+1D damage.

Shell: The Trontoshell has an armoured shell, which protects it from damage, adding +2D to resist all damage which hits its shell.

Move: 10

Description: The trontoshell was an extremely large species of animal that resided on the planet Koboh. They had brown skin with a green, turtle-like shell on their backs, a prominent fin on their heads, and long necks. One trontoshell was spotted by Cal Kestis and BD-1 after they crash-landed on Koboh in 9 BBY.
