Equipment D6 / Akira Softshell Armour

Akira Softshell Armour

Based partialy off Stromtrooper Armour, the Akira SoftShell is a durable lightweight armour with flexible joints. the armour consists of shell like peices that fit over a themral controled body glove. The peices are shaped and fitted togetehr differently than stormtrooper armour and provide protection at the joints but lfixbility as well. The SoftShell armour can come in any colour and is very rounded and smooth. It's helemet covers everything but the nose and mouth. A thin gorizontal visor covers the eyes and has a thin protrussion of the helmet's material to shade the visor from exceess sunlight. The visor has lgiht enhancement and other visual scrubebrs and a military grade comlink is built into it near the mouth.

Model: Akira Armor Company SoftShell
