Description: Voe was a Force-sensitive human female Jedi Padawan who lived during the New Republic Era, having joined the Jedi Order under Jedi Master Luke Skywalker. Voe trained hard as one of Skywalker's apprentices, but felt her abilities were inferior to those of the more naturally gifted Ben Solo.

Voe was away on a mission with fellow students Hennix and Tai during the destruction of the Jedi Temple. When they returned to find the temple destroyed by Ben Solo, they confronted the perpetrator and began a pursuit. Voe was impatient to bring Solo to justice and led a confrontation against him on the planet Elphrona. Solo nearly killed her when she called him a murderer, and in the confusion, Solo inadvertently killed Hennix.

Tracking down Solo to the moon of Minemoon, Voe and Tai faced Solo and the Knights of Ren. While Voe managed to hold back the Knights for a while, their leader called Ren killed Tai, and Solo turned to the dark side as he killed Ren. He then disarmed Voe and used Ren's lightsaber to kill her.

Personality and traits
Voe was a female human with dark skin and white hair. She was an ambitious and aggressive Jedi who was jealous of Ben Solo's ease with mastering the Force. Voe became angry and ashamed about her inability to best Solo, things that Jedi were not meant to get angry about. Voe was a fiery and impulsive Jedi who tended to instigate fights.

Voe's tense relationship with Solo led her to assume that he had a role in the destruction of the Jedi Temple. Her aggressive approach sparked a confrontation with Solo, causing him to flee to Snoke. Voe also convinced Tai and Hennix that the trio should not involve other parties in their investigation into Solo's purported role in the destruction of the Jedi Temple and Master Luke Skywalker's presumed death.

Voe's hostility towards Solo aggravated tensions between Solo and his former Jedi comrades during a confrontation on Elphrona. Despite Hennix's warnings, Voe attempted to pursue Solo by Force jumping. She was also ready to believe that he had destroyed the Jedi Temple and killing Skywalker and the other Jedi despite the lack of clear evidence. Though Solo Force pushed her in a fit of rage, his subsequent regret led him to try to pull her to safety. Though Voe was ultimately saved by Tai, Hennix was killed during an attempt to avenge the harm done to Voe. Hennix's death at the hands of Solo only hardened her feelings against Solo.

Voe was shaken and awed by Solo's mastery of Force lightning during his fall to the dark side. Solo ultimately reciprocated their mutual animosity by killing her following the deaths of Tai and Ren, which cemented his fall into the dark side.

Powers and abilities
Voe was Force-sensitive and wielded a green lightsaber. She was also able to levitate objects, duel with lightsabers, meditate, dodge blaster bolts and even Force jump to great heights. Voe lacked

Solo's mastery of the Force and felt jealous and insecure, attempting to best him in the various Jedi powers and skills. While she never reached the same level as Ben, Voe's hard work made her a combatant capable of facing Ren and his knights on the Minemoon.

Voe also knew how to fly the starship Verity. Besides her lightsaber skills, Voe was also able to dodge Kuruk's blaster bolts with the help of the Force. She also showed leadership when she led the Mimbanese in combat against the Knights of Ren.

Equipment
Voe wore tan Jedi robes. She possessed a green-bladed lightsaber. After Hennix's death at the hands of Solo, Voe took his blue-bladed saber.
