Description: "Ren" was the alias of a human male Force-sensitive who led the Knights of Ren during the last years of the Galactic Civil War and well into the era of the New Republic. A user of the dark side of the Force, Ren was heavily scarred and disfigured, though he made no attempt to hide the damage. During his time with the Knights of Ren, Ren sought to induct other dark side users into their ranks.

After encountering Ben Solo, Padawan to Jedi Master Luke Skywalker, during a confrontation on the planet Elphrona, Ren sensed that the Force was strong with the young Jedi, and suggested that he follow the path of the dark side. Several years later, Solo contacted Ren seeking to join the Knights of Ren after the Jedi Order fell to ruin.

Personality and traits
Despite being a user of the dark side, Ren acted charismatic and friendly, particularly when attempting to recruit others into the ranks of the Knights of Ren. He was handsome, and attempted to dazzle Qi'ra with his rugged charm, though she stated wanted to recruit him and that she was not there for "a pretty face." Upon sensing the dark side of the Force in Ben Solo, Ren unmasked himself, attempting to convince Solo that he could take the path of the dark side rather than become a Jedi.

Ren's ideology did not permit him to think about whether his actions were right or wrong, and he only followed the will of the dark side of the Force. Though he acted as the leader of the Knights of Ren, Ren did not wish for others to follow him, but rather wanted them to follow his ideology. Ren was also arrogant, believing he and the Knights were legendary, and that he could defeat Luke Skywalker on Elphrona. However, when Skywalker overpowered the Knights, Ren chose to admit defeat and escape with his life.

A human male, Ren had brown hair, blue eyes, and light skin, though at some point became severely scarred. Later in his life, Ren's hair became gray.

Powers and abilities
As a Force-sensitive, Ren used the dark side of the Force, which he and the Knights of Ren referred to as the "shadow," additionally using simple Force powers such as telekinesis. Ren was able to use the Force to control the impact of his fall when he jumped out of Vader's castle, he also managed to move the lava flow at the Sith cave with the help of his fellow knights. He also used telekinesis to kill Padawan Tai whose neck he broke with the Force.

Ren had the ability to use a lightsaber in combat, though chose to send his Knights into battle before himself. During the Heist at Fortress Vader, Ren effectively slashed through multiple lava troopers with his lightsaber. Confronted by Darth Vader, Ren managed to engage in a duel with the Sith Lord for a few seconds before being struck by him. During the Raid on the Vermillion, Ren was able to duel with the pit fighter Tasu Leech and eventually disarm him with ease.

Equipment

Ren concealed his face behind a mask, which was featureless aside from a number of red markings which contained hidden Aurebesh letters spelling the title "REN". He did not attempt to cover his scars and burns, leaving his torso bare aside from a black cape and a a single glove on his left hand. Ren removed his mask on Elphrona, leaving it within the Jedi outpost so that Ben Solo could use it to contact him some time later. As the leader of the Knights of Ren, he carried a red-bladed lightsaber that he referred to as "the Ren," which contained a kill switch that would cause the lightsaber to explode if it ever left his hands.
