Description: Jogg was a male Tholothian mechanic who lived on the river moon of Al'doleem.

Biography
Years prior to the Imperial Era, he married Mareena and started a garage on the river moon of Al'doleem. At some point, Kirak Infil'a visited the garage after taking the barash vow and paid them to store his ship there. Sometime afterward, Jogg had two children, Colli and his sister.

In 19 BBY, he heard voices while babysitting his child, and asked Mareena what was going on. Mareena told him that Infil'a was back, shocking Jogg as it had been years since he'd seen him. Jogg and Mareena began repairing Infil'a's ship while he told them the mysteries of the Force. Colli was in wonder that Infil'a could lift heavy items, as she said that Jogg couldn't lift them without help, but he replied that the Force made all things light. However, he felt Darth Vader's presence and dropped all of the materials, worrying everyone. He ran outside to check, while Vader challenged Infil'a to a lightsaber duel. The whole family got out and stared at the two, while Infil'a ordered them to get back inside and fix the ship, which they did.

Due to Ki'rak's warning, the ship was ready for launch by the time the city began to flood shortly after, allowing him and Mareena to put their two children into the ship and save them from the waters despite Jogg and Mareena being forced to be left behind and perish from the flood themselves.

Personality and traits
Jogg had light skin and wore a Tholoth headdress. He did not believe that the Jedi were traitors, and respected Kirak Infil'a.

Skills and abilities
Jogg specialized in mechanics, opening his own garage on the river moon of Al'doleem and helped fix Infil'a's ship.
