Equipment D6 / Vetricon VCG-5 Leg greaves

Vetricon VCG-5 Leg greaves

The VCG-5 is Vetricon's leg component to it's enw modular armour design. The idea is to produce a full set of armour in modular components that can be sold seperately. This allows people to choose just how mcuh protection they want and can mix and match armour if they wish. The leg rgeaves are each made of two plastoid peices conencted by a flexible joint over the knee. A carbine holster sits on the right thgih peice, and a universal sheath sit on the side of the left calf. On the open market these greaves are foten seen worn over a combat jumpsuit.
