Description: Reno Tsutara was a Jedi Master who trained Lah Zhima and Juro.

Biography
Early life
Reno Tsutara was a human Force-sensitive who rose to the rank of Jedi Master in the Jedi Order. Following the disolution of the Jedi Order, Tsutara would come to be one of the fifty remaining Jedi Masters from that era of the Order. At some point in time he took on Juro as his Padawan.

Establishing a new Jedi Order
Reno and Juro eventually arrived on the moon Bibin, where Tsutara came to express his desire to begin a new Jedi Order on the moon to Lady Tafflah and her people, which they proved receptive to, leading to the establishment of a Jedi Order on Bibin. Tsutara gathered younglings from across the galaxy, including Kwana and Lah Zhima.

Political Theater
As no central government existed within the galaxy any more, Tsutara acted as a diplomat and trade negotiator on Bibin's behalf, securing favorable trade deals for the world. At the same time, Tsutara had tasked Zhima with tracking down and eliminating the Sith threat within the wider galaxy. Unbeknownst to the Jedi Order and the people of Bibin, Tsutara was quietly falling to the dark side. In order to ensure favorable conditions for himself and Bibin, Tsutara would kidnap and replace influential figures within other star systems and sectors, freezing them in carbonite and hiding them away within his starship.

Final Days

Following Juro's attaining the rank of Master, he would depart to become the Margrave of the Kyber crystal rich planet of Hy Izlan and manage the Hy Izlan Aerial Temple. Tsutara and Zhima would both delve into their choice disciplines of politics and combat in the aftermath of Juro's departure. At some point however, Zhima confronted Tsutara about actions in the political world that would culminate in Tsutara attacking Lah Zhima. A long and arduous duel across the capital and Bibin Jedi Temple between the two Jedi ultimately culminated in Tsutara being cut down by his former student after Lah Zhima discovered how to center and detach himself within the Force.

Equipment

Master Reno Tsutara owned a blue lightsaber that upon his death would fall into the hands of the former Youngling turned warlord General Nawaam.
