Merr-Sonn SC-Medic Combat PowerSuit

After designing combat powersuits for the maiming and killing of others, Merr-Sonn decided it would be best to design a suit designed specifically for saving the lives of the injured.

When used by a trained medical physician the suit can do wonders to save the lives of countless wounded soldiers on a battlefield. It has a built in diagnostics sensor which can be used to diagnose diseases, access health and a variety of other basic medical uses.
