Equipment D20 / Adelphi db9 Double Barrel p

Adelphi db9 Double Barrel pistol

The Adelphi db9 is not a totaly original cocnept. People have been trying to make a double barrel blaster that was worth the effort for quite a while. Rather than working with carbines or rifles though, Adelphi chose to stick with pistols, something they worked with exceptionaly well. The barrels can be fired seperately or together. Fired seperately, each shot is as pwoerful as the blast from a DL-19 blaster pistol, but ired together it has a stopping power equal to that of the DL-44 heavy blaster.
