Equipment D20 / Adelphi qb11 Quad-Barrel P

Adelphi qb11 Quad-Barrel Pistol

An Improvement from the db9, the qb11 is slightly bulkier than a DL-44. Rather than two barrels the qb11 has four of them, each with signifigant stopping power. In single or double barrel mode each blast is just the same as the db9, however they get more shots for each mode. In quad-barrel mode, the weapon has nearly the same stopping pwoer as a DL-44 LE. This mode eats up the pwoer pack with great speed but the stopping power is signifigant.
