Equipment D20 / Nerical Rolling-Thunder

Nerical Rolling-Thunder

When Elvar Nerical was first starting out as a gunslinger he favored two BlastTech T-6 Thunderer heavy blaster pistols, but it got to be difficult to quickdraw them when needed because of their bulk. He gave up his thunderers but when he took his job as a weapon designer for RanCorp. The first thing he did was to pull the specs of the old T-6 and try to make it easier to quickdraw without surrendering a lot of punch. What resulted was what he called the 'Rolling Thunder' a powerful blaster made specificly for quickdrawing. Because of the adavnced technology involved the ELV-6 costs nearly as much as a blaster rifle. For an extra 300 credits you can get a quickdraw holster specialy made for use with the rolling thunder.
