Equipment D20 / Sniper Blaster pistol

Sniper Blaster pistol

This weapon was originally intended to be a back up sniper weapon. On the contrary, many bounty hunters and assassins have take to using it as a lightweight sniper weapon. This weapon funnels 95 percent of the power packs energy to range and damage. This ends up as a powerful lightweight, long-range pistol. The special power packs only hold five shots. The last shot is only a back up shot and is far less powerful.
