Notes:
One of Zarnok's first blaster weapons. Zarnok engineering was one of the first companies to make "blasters", this model is older, and is now called the Butt Blaster due to its tremendous heat output, so when you set it to a low power setting all you get is a lot of heat. Pirates would often use Butt Blasters to shoot people in the butt with because they cause so much pain. Now they're used as normal weapons by a lot of the smaller groups of pirates. Due to the butt blaster's extreme heat, the most amount of times you can use it is 4, after that, you have to wait one turn or two rounds to cool it off.
