Equipment D20 / B-12 Blaster Rifle

B-12 Blaster Rifle

Diving into the blaster market with their XT-1 blaster pistol, Kashan needed to find a foot-hold in the heavy weapons market. The B-12 blaster rifle was the result. It is more powerful than the famed BlasTech A280 and is the standard issue blaster rifle of the small Kashan Army. It's a modular design, with several variants (such as the B-12/c carbine) and is easily maintained and modified. A common modification is the addition of a second power pack, which can be purchased in a kit from Kashan for 100 credits and will allow two power packs to be loaded at once, doubling the ammunition.
