Equipment D20 / B-13 Blaster Rifle

B-13 Blaster Rifle

The standard blaster rifle in the Palvar Defense Force has long been the B-12 heavy blaster rifle which was more powerful than even the famed A280 model produced by BlasTech. The B-13 is smaller than the older B-12 and does pack less of a punch while being cheaper and more energy efficient at the same time.

The B-13 features a folding stock and an optional folding forward grip for convience and easier handling in tight areas. It is easily adaptable and comes ready-made to fit everything from a variety of target scopes, laser sights, under-barrel grenade launchers, flashlights and even bayonets.
