Background:
Nadia Santos was born in Moscow, USSR.
Dr. Jong Lee experimented on Nadia as a young girl, using the Rambaldi elixir to try and make her reveal the equation that would lead to Rambaldi's Sphere of Life. CIA agent and Rambaldi follower William Vaughn rescued Nadia and brought her to an orphanage in Argentina run by Sophia Vergara.

Nadia later ran away from the orphanage after saving a friend from a child predator. On the streets, she meets Cesar Martinez and builds a reputation as small-time criminals. After being arrested in

her late teens, a man named Roberto Fox visited her in jail with an offer to work for the Argentine Intelligence. Later, Nadia realizes that Fox was running an illegal operation under the guise of working for the government. Nadia confronts and shoots him.

Six years later, Nadia was on her first deep-cover assignment in a Chechnyan prison, and was found by Agent Sydney Bristow, her half-sister. She started working for the APO and is dating Agent Eric Weiss.

Currently in critical condition after being subjected to Rambaldi's device and battling her sister close to death. Shot by her father, Arvin Sloane.
