Equipment D20 / Adelphi Heavy Wrist-Blaster

Adelphi Heavy Wrist-Blaster

Adelphi started amrketing Wrsit Blasters to Bounty Hunters and assassins. The idea of the weapons was to give them the ability to fire a weapon while keeping their hands realtively free. The blaster is fired by flexing yer wrist a certain way. It also is fairly easily concelead from visual inspection. The WB-8 offers just slightly mroe stopping pwoer than the standard DL-44 hwoever it has a very slow fire rate. And with only twenty-five shots to a pwoer pack, every shot has to be made to count.
