Equipment D20 / HattMark BB-3

HattMark BB-3 Blaster Bomb

This is the first marketed Blaster Bomb made by HattMark Industries. It is unmistakeable from a hold-out blaster unless you take it apart, which detonates it. It has a toggle switch that is in the place of the 'safety.' When the 'safety' is on, the bomb will explode one round after the trigger is pulled. When the 'safety' is off, it will explode, doing point-blank damage to the user.
