Equipment D20 / Arbitron Government Model

Arbitron Government Model 2911

The Arbitron 2911 was originaly made for military personal and police forces but was brought quickly into the open market when newer models were brought into play. It has a slide lock, thumb safety, and grip safety an aprox. weight of 39oz. and is roughly 5" long. A nice .45 caliber pistol, the 2911 is nothing to scoff at, but still, it is nothing vastly new or creative as Arbitron is known for.
