Belecuu AR131/F3

The Belecuu AR131/F3 is a compact assault rifle with an under barrel flamer attachment for a bit of extra flare. The flamer was added with the intention of being used in close quarters combat scenarios where it would be hard for an intended target to get clear of the wall of fire.

The stock Belecuu AR131 is a rather versatile weapon that features a short fixed stock, short barrel, extremely high rate of fire, a digital display screen above where the ammunition clip is inserted that displays the total number of rounds remaining (can be modified to also display amount of ammo left in any under barrel weapons) and even a retractable vibrobayonet.
