Equipment D20 / Bantha Gun

Bantha Gun

The term "Bantha Gun" is a generic name given to many massively large slug-throwers by hunters and poachers. Most hunters and poachers own one of these weapons (though they will deny it for legal purposes) for use against large creates such as rancors or wampas. The weapon itself is massively huge, nearly two full meters in length. Some bounty hunters have been known to use sawed off versions of the weapon on occassion when seeking a "wanted dead" bounty.
