Mestic Spec-55 Over-Under

The Spec-55 is based on the same concept as the Spec-8, but the design team took a much different approach when designing the Spec-55. The Spec-55 operates with a variation of the old double barrel concept, where two barrels are loaded simultaneously. The vast majority of all double barreled slugthrowers have the barrels aligned side-by-side, this is not the case with the Spec-55. The Spec-55 Over-Under got its name from its barrel arrangement, one over the other.
