

Equipment D6 / Drug: Newk

Newk

Newk is a common spacer and swoop gang drug. It is a severe neuro-stimulant. It gives the user a 'charge' and a low degree of pleasure. It however also makes the user hyperactive while under it's effects and acts simialir to anabolic steroids.they become very jitory and quick to anger. They have irrational behavior and alsh out violent with surprising speed and strength. Newk is taken from a special syringe capsule. The user jams the end into a vein then squeezes the hit out throguh the syringe.

Game Effects:

Adds +1D to Dexterity, and Strength for 25 minutes. After the effects wear off, the user takes one level of injury to his body, although instead of going to incapacitated, they become Wounded 3x, then Wounded 4x, etc. While under the effects of the drug they are at -1D to knowledge, mechanical, and techical for every 1d they get added to strength and dexterity.

After each dose roll 2Dxnumber of times the user has taken the durg versus the user's willpower. If the user loses, they become addicted and need a hit every two days or they go into withdrawl. in the first 3 days of withdrawl the user suffers severe manic depression as well as nervous ticks and trembling. Days 4-6 are charchterised by heavy jitters, unctrolled shaking and trembling, lots of facial ticks, and violent tendancies. Days 7-9 involve full out spasms and unchecked violent pychotic behavior. By day 10 if the patient survives they die a horrible death as their nervous system overloads.
