

Equipment D20 / Drug: Semuta

Semuta

A highly addictive narcotic derived, by crystal extraction, from elacca drug (the residue produced from burning the blood-grained elacca wood of Ecaz). The drug is either taken in capsule form or dissolved in wine, and produces a feeling of "timeless ecstasy," of separation from all pain and trouble. Accentuating this overpowering sense of well-being is the "semuta music" -- rhythmic, atonal vibrations composed to affect the sympathetic nervous system -- that accompanies the drug experience. Most often a single dose suffices to cause severe physiological addiction. Addicts are prone to fits of depression between doses, and are incapacitated when under the effect of the drug.
