Equipment D6 / RahlTech Laser Targeting Sy

RahlTech Laser Targeting System

The RahlTech LTS was developed shortly after the Battle of Endor. It serves as the perfect sniper finder, especially at night. The laser is shot out in the direction the RL-LTS is pointing and if it hits some sort of optical lens (like the kind found is rifle scopes) it is shot straight back, illuminating the lens in a bright green colour.

Model: RahlTech LTS
Type: Laser Targeting System
Availability: 3, R
Cost: 1200
Range: Day: 600m with special lens, 400 without special lens
Night: 850m
Game Notes: Any lenses the laser points at are illuminated a bright green, adding +2D to the user's blaster/firearms roll in the dark, +1D in the day.
