Background:
Civilian specialist Rodney McKay was born in Canada.
Doctor Rodney McKay is a familiar face at the SGC. He was called in by the Pentagon after Teal'c became trapped within the Stargate system. He had been studying the Stargate Program out of Area 51 for over a year and was considered by the Pentagon to be the world's foremost Stargate expert.

Once Teal'c was saved, McKay was reassigned to Russia to work on naquadah generator technology. McKay was later brought back to aid Samantha Carter in the development of a solution when Anubis began to slowly destroy Earth's Stargate.
