Equipment D20 / RanCorp QR-15 Quarren Un

QR-15 Aqua-Jetpack

This jetpack uses a special electro-motor to create an air pressure system underwater propeeling the wearer forward. It's design is quite simple and is rather easy to use. What makes the cost rather steep is the fact that it is incredibly lightweight.
The QR-15 can be bought at most sporting goods stores.

RanCorp QR-15 "Quarren" Underwater Jetpack
Underwater Jetpack
