

Weapons D6 / Lumnar Extendable Quarterstaff

Lumnar Extendable Quarterstaff

The extendable Quarterstaff is made of a cheap durasteel alloy and built on a telescoping frame. It retracts into a tube roughly 8.5 centimeters long and 3.5 centimeters in diameter. With a press of the thumb activated button, the quarterstaff extends to its full length. when it's fully extended it's impossible to see the seams that allow it to telescope back in, they are compressed strongly to prevent them from being weak points where the staff might break.

Model: Lumnar Industries Extendable Quarterstaff

Type: Extendable Quarterstaff

Scale: Character

Skill: Melee combat: Staff

Cost: 960

Availability: 2, R

Difficulty: Easy

Damage: STR+2D

Notes: Each round, one 'free' parry may be made with the quarterstaff, which does not count toward a multi-action penalty. Extending or retracting the staff counts as a free action.
