

Weapons D6 / BlasTech MD-22 Heavy

BlasTech MD-22 Heavy Disrupter pistol

Taking their new MD-20 disruptor pistol, BlasTech modified it slightly swapping range and ammunition for added firepower. The BlasTech MD-22 is nearly identical to the MD-20 with only a slightly larger frame to hold the larger power converters.

Even due to their illegality, short range and high cost, disruptors still prove to be some of the most lethal weapons to be found. Disruptors work by breaking down objects at a molecular level. They have a short range and quickly drain their power cells, but almost guarantee lethal results. Disruptors are outlawed almost everywhere and are typically seen only in the hands of terrorists and pirates.
