

## Weapons D6 / Verdant Technologies Incinerator

### VerdanTech Incinerator

The verdant Technologies Incinerator Heat Cone Rifle is a new way of using flamethrowers. Rather than using dangerous fuel to emit a cone of actual flame it uses energy packs to emit a powerful cone of heat energy which will cause all flammable materials to catch fire and in itself can burn away flesh with the tremendous heat. Sometimes the heat becomes too much and the weapon has a 'melt down' which renders the weapon totally worthless, however it's one setback is made up for in the uniqueness of the weapon.
