

## Weapons D6 / Verdant Technologies ICE-5

### VerdanTech Shoulder Mounted Ion Cannon

The ICE-5 Shoulder Mounted Ion Cannon is absed off the L-5 Shoulder Missile Launcher. It uses a ahrness to strap an ion cannon on shoulder traverse to a control belt at the user's waist. the belt has a joystick for controlling the movement of the ion cannon with a firing stud on the top. A holodisplay eye peice extend over the user's right eye. This peice is semi transparent so as not to handicap the user. It can zoom in on the target like a macrobinocular. This targeting system makes the weapon very acurate.
