Starships D6 / Gwirekon Base

Brain Station'

Gwirekon Base, nicknamed Brain Station, is the headquarters for the now infamous pirate gang. It is not commonly known where Brain Station is, however it is within an asteroid shroud out in the expanse where the likelyood of anyone stumbling onto it is narrow at best. The station is run completely by a gigantic being consisiting of an enemous brain named Zebes. Zebes sits at the center of the station psychicly hooked into the systems of the station so that he runs them totaly. Zebes is also one of the highest ranking members of the pirate gang, acting independant of the Captains and outranking them when they are at Brain Station. Zebes reports directly to Gwirekon himself, a being that nobody but the brain has ever met in person.
