

Starships D6 / Verdant Spaceworks Deep

Verdant Spaceworks Deep Space Factory

The Starforge-class Deep Space Factories are used by Verdant Spaceworks and Verdant Technologies to produce starfighters, vehicles, ground weapons, personal weapons, body armour, and just about anything else. They are the heart of Verdant Technologies' industry. Everything and anything they produce can be produced here aside from capital scale starships. The location of these factories are kept from public knowledge as much as possible.
