

Starships D6 / Verdant Spaceworks Hercules

Verdant Spaceworks Industrial Materials Hauler

The Hercules Industrial Materials Hauler was originally just a workhorse for Verdant Spaceworks. The craft were used at their various factories and shipyards to bring smaller amounts of building materials to and from the factories/shipyards. However, it has always been Verdant's method to sell anything to anyone who has the cash to pay for it. The Hercules is a strictly in-system craft.
