Starships D6 / Verdant Spaceworks SSC Sma

Verdant Spaceworks' Small Service Craft

The little Drone Bee of the Verdant Spaceworks work force. The SSC small service craft perform repairs, rearmamaents, and refueling for Verdant Facilities and the craft around it. These vessels can be dispatched to perform repairs on facilities such as factories and shipyards, repair damaged fighters and transports, refuel fighters and transports, or rearm starfighters in a battle. They are small agile crfat capable of getting to hard to acess areas. During time of raid, some facility commanders have been known to depserately even send the SSC into battle using their tools to cause instea dof repair damage, incluidng using their plasma torches to open hull in enemy capital ships' hulls expsoing them to vacuum.
