Starships D6 / Zaltin/Kuat Drive Yards Bulk B

Zaltin Bacta Hauler Mark III

Zaltin, one of the Chief Bacta Producing comapnies in the galaxy, needed a trasnport designed to specialy haul the precious healing fluid safely. Their chief rival, Xucphra, had the same problem and went to the Corellian Engineering Corporation. Zaltin Instead went to Kuat Drive Yards for their tanker. The Mark II was still falling pray to well equipped pirate raids so an even more well defended tanker was needed. the Mark III was equipped to deal with both Capital and Starfighter threats and it's tanks were moved partially inside with hull plates wrapped around them to make them less vulnerable.
