X-Wing Advanced

Incom Corporation's T-67C4 X-Wing "Advanced" Starfighter is the last stage in the evolution of the famed X-Wing starfighter. The T-67C4 is basically a T-65AC4 with a few improvements that improved overall speed slightly. This model was released a few months after the death of Grand Admiral Thrawn at the Battle of Bilbringi and only saw limited production before the X-Wing began to be replaced by the newer E-Wing starfighters.
