### Background:

With the blood of Xena in her veins and the spirit of Callisto in her soul, small wonder that she is aggressive and energetic. But her extreme savagery has more sinister roots the incestuous advances of her stepfather Octavius, might have something to do with it. Ares has done his best to nurture her dark side too. Raised in luxury but bereft of a true parental figure, Livia basks in the praise of both these men but is otherwise unable to find satisfaction in anything but bloodshed.
