Starships D20 / TIE Vindicator

TIE Vindicator

The TIE/V Vindicator was designed by Sienar Fleet Systems for the sole purpose of defending their ships, convoys, space stations, and corporate headquarters on Lianna. Only a handful were sold to the Empire, who seemed more interested in the TIE Avenger and TIE Defenders which were fairly new at the time of the designing of the TIE/V. Those TIE/Vs that were sold to the Empire were destroyed during a Rebel attack on the Escort Carrier that was transporting them to the Core. The only TIE/V Vindicators still in service belong to Sienar Fleet Systems.
