Starships D20 / Neyomal Sermam Fighter

Neyomal Sermam Starfighter

The Sermam is the most powerful fighter known. It is also amazingly agile, able to out-maneuver any other fighter. This ship has a deadly Neyomal Energy Emitter, also emitted between the four "arms". It is also a very large craft for being a fighter, around 40 meters long. The craft cannot be released in as large quantities as many other fighters can due to it's size, but it's strong hull and firepower as well as the pilots' skill make up for this somewhat.
