

Vehicles D6 / Kashan Industries HK-6

PDF Anti-tank Hunter Killer

The Hunter Killer is an awesome assault speeder which primary use is as a tank destroyer. Its secondary use is as a bunker buster. It takes 2 men to fly the HK-6, the pilot performs maneuvers, and the gunner acquires target locks and operates weapons control. The gunner sits behind the pilot, back faced to him much like the Alliance's combat airspeeder. The HK-6 was a joint effort of Kashan and Mestic, much to Kashan's distaste.
