

Vehicles D20 / RanCorp RWQ-490 ST

Single Trooper Assault Platform

The STAP is an old design brought up to more modern standards. It is a long vertical platform with hand and foothold to keep the rider on tight. The vehicle is similar to a swoop only vertical. Twin medium blaster cannons give the vehicle a powerful punch. This vehicle can turn any soldier or war droid into a fast mobile attack unit. Relatively simple in design and very cost effective the STAP is becoming a popular scout vehicle once again.
