BACKGROUND: Ordo Skirata, formerly known as Null-11, served as an Advanced Recon Commando in the Grand Army of the Republic during the Clone Wars, the conflict between the Galactic Republic and the Confederacy of Independent Systems. Ordo was one of six surviving Null-class Advanced Recon Commandos cloned from the genome template of Jango Fett, a Mandalorian bounty hunter with a reputation as the best in the galaxy. They were scheduled to be terminated by the Kaminoans due to their unpredictability and insubordination, but were saved when Kal Skirata, a Mandalorian training sergeant recruited by Fett, intervened and took it upon himself to train them. Imparting to them their Mandalorian heritage, Skirata named Ordo after a renowned Mandalore, Canderous Ordo.

When the Clone Wars broke out, Ordo took part in many successful missions against the Separatists. During one of these missions, he met and later married Besany Wennen, a Republic Treasury Audit Division agent working undercover at the GAR Logistics center. While carrying out their duties, Ordo and his brothers secretly searched for a way to stop their accelerated aging. They covertly stole data from all known cloning organizations and companies, while also abducting scientists like Ko Sai and Ovolot Qail Uthan to make sense of the data and find the cure. After Supreme Chancellor Palpatine issued the command for Order 66, the order to kill all Jedi, Ordo deserted from the GAR and fled to Mandalore with his family, where they continued their search for the cure and provided aid for other clones that also deserted. During a trip to Bogg V, Kal formally adopted Ordo in a brief Mandalorian ceremony, making him the first of the Nulls to be formally adopted.
