Sound Sensor:
+1D PERC in quite situations only.

Broadband Antenna:
Can intercept and decode most communications frequencies. Can patch into shipboard and vehicular communications systems.

Environmental Filter:

Filters out most harmful particles from the air or seal with two hours of air.

Background: Kom'rk Skirata, originally known as Null-6 or N-6, was a Null-class Advanced Recon Commando in the Grand Army of the Republic. A year into the Clone Wars, along with Jaing Skirata and clone shadow troopers, he was one of the Clone Intelligence units responsible for locating General Grievous on Utapau. They did this as early as 21 BBY, but Jaing felt that the information came to them too easily and that someone wanted them to know that Grievous was based there, so they didn't report this information to their superiors until the end of the Clone Wars. Kom'rk deserted from the Grand Army of the Republic when Order 66 was issued and went to live on Mandalore with the rest of Clan Skirata. Soon after arriving, he discussed Etain Tur-Mukan's cremation and the Imperial army's improved computer defenses with his Null ARC brother Ordo Skirata.
