Description: The GTVA Colossus resulted from an endeavor unprecedented in Terran or Vasudan history. This 6-kilometer-long behemoth is the result of 20 years of joint effort from dozens of contractors of both races. The Colossus is the most powerful space-faring warship ever made, bristling with over 80 weapon turrets. It also houses 60 fighter and bomber wings and requires a crew of over 30,000. The firepower of the Colossus is greater than that of most GTVA battle groups.
