Description: The Rakshasa is one of the most deadliest crusiers in the Shivan fleet. The four "prongs" on its front hull comprise four laser beam weapons of devastating accuracy. The other parts of the ship are well defended with 10 other gun banks.

Though not as thickly armored as the Lilith class, the SC Rakshasa class of Shivan cruisers is far deadlier. With over a dozen turrets, the Rakshasa is the most heavily armed Shivan cruiser class. It was a Rakshasa cruiser that destroyed the GTC Vigilant at the Gamma Draconis node in the Capella system.
