Charcter Bio - Shado Vao was a Rutian Twi'lek Jedi Knight living around the time of the Second Imperial Civil War. Prior to the Massacre at Ossus, he was the Padawan of Jedi Master Kol Skywalker and a close friend of Kol's son, fellow Padawan Cade Skywalker.

When their parents' ship crash-landed on the planet Vendaxa, Shado and his twin sister, Astraal, were orphaned. Taken in by the Imperial Mission, Shado was later recruited by the Jedi and became known for his exceptional lightsaber skills, with a single blade or with a less traditional double-bladed lightsaber.

At the end of the Sith-Imperial War, with the Galactic Alliance already defeated, the forces of the One Sith led an assault on the Jedi Praxaeum at Ossus where Shado was training. As Masters Kol Skywalker and Wolf Sazen fought off oncoming waves of stormtroopers and Sith Lords, Shado and Cade were charged with getting the Jedi Younglings off-planet. However, when Cade disobeyed his father's orders and was seemingly killed, Shado was forced to abandon his good friend to protect the children.

Afterwards, Shado became Sazen's Padawan, completing the path to Knighthood he had begun under Kol Skywalker. Shado left Master Sazen after earning the rank of Jedi Knight. They were reunited after Wolf called a meeting of four remaining Jedi: himself, Shado, Rasi Tuum and a Human woman. The meeting was ambushed by the Sith, but only after Wolf informed the group that Cade was the galaxy's only hope. After the Sith assault on the convocation, Shado and Wolf were all that survived.

Knowing that if ever they were in danger they should try to meet up on Vendaxa, Shado brought Wolf with him to the site of their parents' deaths. There, amongst the wreckage the Twi'lek Jedi was reunited with his sister. The reunion was cut short, however by the appearance of Darth Talon, who had apparently trailed Astraal and the Princess Marasiah Fel from Socorro.

Astraal Vao, having prearranged a rendezvous with her brother Shado if ever they were in trouble, guided the crew of Mynock and Princess Fel to the crash site where Shado and Astraal's parents died. There, they came under attack from an acklay, and only the timely arrival of Shado and Wolf Sazen saved Astraal from being impaled upon the acklay's foreclaw. The immediate danger over, Princess Marasiah set about arranging safe passage with the two Jedi, revealing that she knew of Mynock crew's intention to turn her in for the bounty on her head. Not wanting to be recognized by his former Master, Cade stayed in the shadows and did not argue with the Princess. However, Jariah called him on his wanting to cut his losses, using his name as he did so which attracted the attention of the two Jedi. Turning to face the Jedi, Cade calmly stared down his former Master and admitted his name was Cade. If Wolf recognized his former pupil after their years apart, he gave no sign; instead choosing to turn to direct Princess Fel to where he and Shado had secreted their own ship. A sudden explosion signaled that ship's destruction, however and was quickly followed by an attack by Darth Talon, who used the dark side of the Force to provoke a number of native cannoks into attacking alongside her.
