Earthdawn / Trollite

Name: Trollite
LP: 70
Description: Even more tragic than Cave Trolls are the Trollites, a form of degenerate trolls that resulted after the scourge, the precise mechanics unknown as none of them kept records. Trollites are shorter, squatter and usually fatter than other trolls, and hairless with a rubbery hide, and have less fingers and toes. They also tend to see no need for diplomacy, clothing or other civilized graces, considering their sturdy greatclubs a universal solution to all problems. Trollites are lazy and dislike working, and try to take most things they want, often traveling in bands leaving a mess in their wake.
